## Apartment in Area of Málaga - New build

Kaza Exclusiva presents you the avant-garde project "Apartamentos Paloma". A unique project located on the Antonio Banderas Promenade in Malaga, Capital of the Costa del Sol.

The project involves the construction of three towers in total. In the middle tower we offer you 71 beautiful residences spread over 22 floors with panoramic sea views and an interior space of between 45 and 100 square metres that gives the flats an indescribable feeling of spaciousness.

Homes, ranging from 1 to 4 bedrooms, will be built with the qualities inherent in a luxury villa and offer the amenities of a flat.

Construction of this middle tower will begin in the first quarter of this year (2021).

One of the most prestigious architectural firms in Spain has developed this "one and only" project.

Another interior design firm, based in Barcelona, combines avant-garde design, a cosmopolitan lifestyle and great attention to detail to enhance the sense of well-being in the interior of each space. Interior designers help translate your dreams into reality. (Please note that the flats are sold finished, with kitchens, bathrooms, indirect lighting etc, but without furniture or decoration)

In addition to enjoying and living in your own flat, you can also take advantage of general services such as a cinema room, spa, games room, kids' room, 200m2 gym, pool bar, infinity pool, heated pool, solarium, shopping centre, office centre and co-working space.

Don't let this opportunity pass you by, contact us today and reserve your dream residence!
